Page 1 of 2

5. After successfully login, you will be directed to home page “/”. In this page will show all of User’s products that has been added. There are also several button with different functionalities:

- Add Product : redirect to add product page “/add-product”

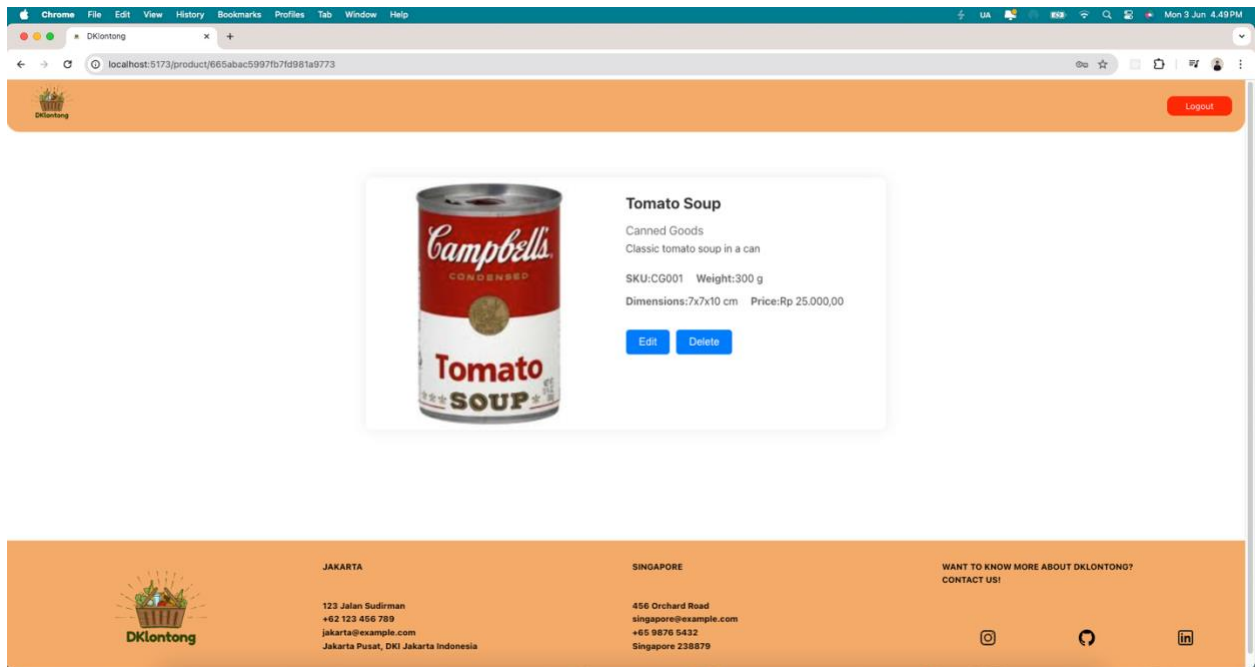

The screenshot shows the Dikientong application interface for adding a new product. The page has a navigation bar with a logo and a 'Logout' button. The main content is a form titled 'Add Product' with the following fields:

- SKU:
- Category Name:
- Name:
- Description:
- Weight:
- Width:
- Length:
- Height:
- Image URL:
- Price:

At the bottom of the form is a black button labeled 'Add Product'.

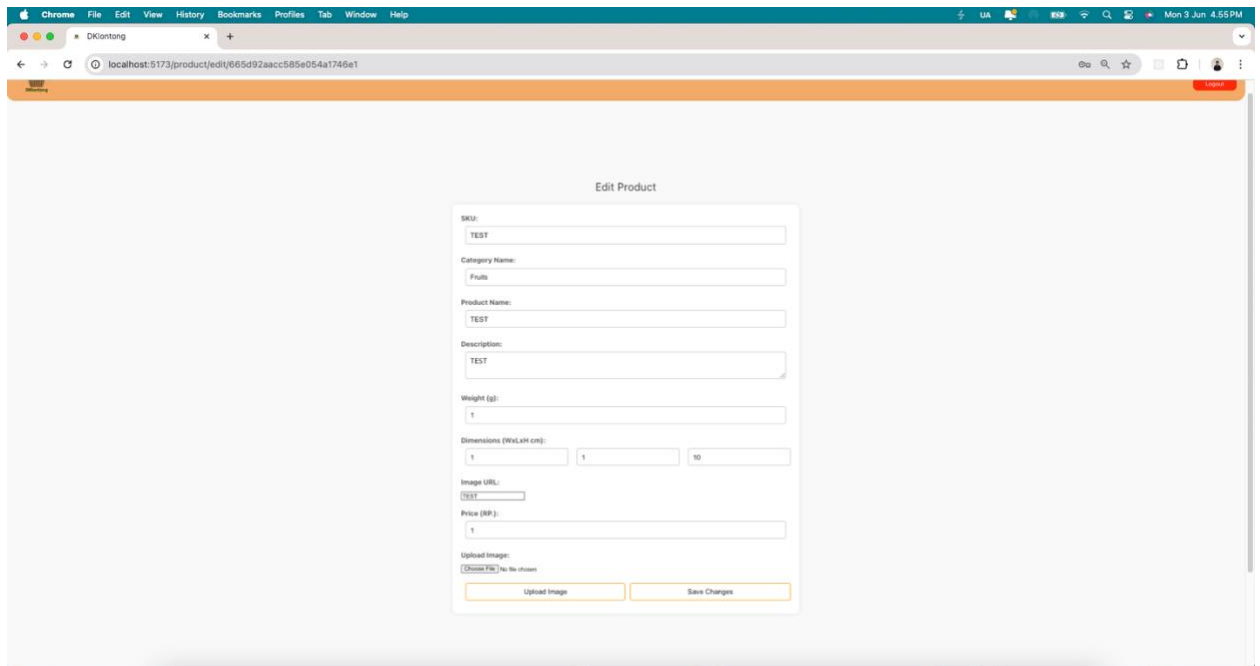

In this page you can add a product by inserting the required field. After successfully adding a product, then you will be redirect to Home Page “/”. You would getting an error if you are not insert all the filed.

- If you clicked one of the product image in the Home Page, you will redirect to details of the clicked product “/product/<id>”.

In this page you can see details of the product, also you can redirect to the edit page. To edit the product, or you can delete the product and will be redirect to the Home Page “/”.

- If clicked the edit button, you will redirect to edit page “/product/edit/<id>”

The screenshot shows a web browser window with the address bar displaying 'localhost:5173/product/edit/665d92aacc585e054a1746e1'. The page title is 'Edit Product'. The form contains the following fields:

- SKU:
- Category Name:
- Product Name:
- Description:
- Weight (g):
- Dimensions (WxLxH cm):
- Image URL:
- Price (RP):
- Upload Image:  No file chosen
- 

In this page you can edit the chosen product's details and also uploading an image. To upload an image clicked the choose file button and search for the image to upload, after it's been chosen clicked the Upload Image first. Wait until the uploading is complete, then you can clicked Save Changes to save the edited product. After successfully edited the image you will redirected to Home Page “/”

NOTE: You have to Upload the image first to properly save the image url.
